

Giving you more to succeed

Intermediate Oncoplastic
Techniques teleconference

September 12, 2020

Course description

We're taking our MedEd programs virtual. Whether you are in the office, the O.R. or at home, our team is here for you.

Led by distinguished faculty, this intermediate course is intended for breast and plastic surgeons who are already proficient in basic oncoplastic techniques and want to advance their oncoplastic skills.

Through live lectures, group discussions and training videos, attendees will be exposed to level 1/beginner oncoplastic techniques including marking, technique selection, oncoplastic mastopexy/reduction, nipple-sparing mastectomy, and optimizing outcomes through a team approach.

An overview of the Hidden Scar Certification Program and discussion on how to differentiate yourself and your breast program will be included in the course.
